It is sad to think that thousands die annually with the means of life and health almost within arm's length Many a weakling soes down to the grave every day whom the timely use of HOSTETTER'S ORIEZRATED STOMACH BITTERS would have sayed. It is a conso lation, however, to know that this glorious Tonicvitalizing Elixir without a single drawback-is pre debility and prostration, it is producing effects that are perhaps more astonishing than anything heretofore observed or recorded in the history of medical treatment Feeble, emaciated and despairing patients, whose pow ers of digestion seem to be actually extinguished, re cover their appetite, strength and spirits, under a course

of the bitters, with a rapidity that is positively amazing. All that the proprietors originally expected from the preparation was long ago thrown into the shade by its actual results. New virtues, which they had never thought of att. ibuting to it, are continually being dereloped in its application to new cases. INDIANAPOLIS, May 23. Gov. Morton has suggested to the Secretary of War the propriety of issuing orders direct-ing that all field, staff, and line officers now in stryice and about to be mustered out, with their commands, who have been promoted to higher grades in their r giments and comnies but who have not been mustered int said grades by reason of their commands being below minimum strength, be so mustered in as of the case of their muster out. It is claimed that the officers have assumed all the

nected with the positions to which they have been commissioned for meritarious services, and that while their muster in, as proposed, would not it crease their pay or in any manter affect, the government it would, he regarded appreciation, and a recognition of their faith in services in saying and restoring the Union. The co-operation of the Governors of other States has been invited to secure the issuing of the order mentioned. NEW YORK, May 23.

Hospitals. - We have been inaccurate in re gard to our reports of the hospitals in this city. The only hosp ta's closed in this city is Clay, of only 225 beds; No. 15, in Jefferson ville, is cleared of 102 beds; Totten Hospital was closed about one year ago; Jefferson Hospital, in Jeffersonville, can accommodate 4.400, and at present has beds set in order for 1970 patients, Joe Holt has 275 beds; Brown Hospital, near the city, has 1,000 beds, and Crittenden 360, 300 of which are emply These are all the bospitals in Louisville and Jeffersonville. At New Albany there is a large general hospital-1,050 beds-and one floating (Corps de Afrique) hospital, of 150

beds. The latter has been closed. CATERPILLARS .- We were shown yesterday a leaf of the grape upon which was a beautifal white miller, which are to be found in al the gardens and yards in the city and country, apon the leaves of pears, grapes, &c. They have seldom been noticed on account of their beauty and innocence, but upon close examnation of the leaf upon which these bugs will be found, the eggs of the embryo cater pillar may be seen by thousands If our citizens would pluck the leaf and trimple it under foot, thousand upon thousands of caterllars would at once be destroyed, and the ravages of the destroyer in our midst checked in time to prevent the almost certain destruc

NEW YORK, May 23. The Democrat of yesterday says that in addition to Dr. Biackburn's plan to introduce fever by way of Bermuda and Halifax, the conspirators also decided to send to Liverpool about one hundred thousand dollars' worth of new clothing, after having it infected with small pox and yellow fever, to be imported to be Uni ed States, and a large quantity of hem was to be delivered as a present to the

them was to be delivered as a present to the Sanitary Commission

The Tribune's Washing ton special says that a gentleman who left Richmond at the beginning of the war lately returned there. He was received by very few of his old acquaintances. Meeting one with whom he was formerly intimate, he asked why he didn's recognize an old friend, and the answer was, "We do not consider such as you our friends." Another gentleman, who formerly lived in Fredericksburg, lately sent his family to that place, intending to make it his home. He has since received a letter from his wife that it will be exceedingly unpleasant to them to remain there, as the feeling against them is inmain there, as the feeling against them is inense.
The Commercial's Washington special says

Mr. Dans has gone down to Fort Monroe to give personal orders as to what is to be done with Jeff. Davis and those of his suits who the Times special, dated Raleigh, May 18,

says the records of the rebel war department, surrend red by Johnston, reached that place on the 16th There were eighty-three bexes, total weight probably eight tune, and filled six wagons. The oox marked papers and books of Gen. Lee's neadquarters, contained original drafts of Lee's reports of battles and original drafts of Lee's reports of battles and campaigns, and other papers of some import ance. The original report of the Gettysburg eattle was found in it, besides several other manifestoes in Gen. Lee's own hand writing Another box is marked official reports of battles, A and J. Large boxes con-taining flags and colors captured from differout regiments of our army, are also included a the los.

A Washington letter annoences the arrival of the rebel archives. A strong force has been detailed to examine it at once. It is not improbable that strong proof may be secured af the complicity of Davis and his associates with the murder of Mr. Lincoln. Additional particulars will also be procured from Canada, and there are strong ind cations to t Davis will be tried as accessory to the Pacsident's murder.

Heraid's Mobile letter says that the women are the only decided repells in that cive. There

The general idea is that the number of troops comprising the army of the Potomac, reviewed to day, is about 75,000. The negro troops were not in the procession.

From the portice of the Treasury Department the flag of the treasury guard was displayed, the lower portion tattered and tore, not by bairle, but by the shoe of Booth, the assassin, as he jumped from the bex to the stage on the night of the assassination. A placard appended stated this fact and it attracted much attention.

Official intelligence has been received of the surrender of St. Marks and Tallshasse, Flories; also of the rebel steamer Spray.

OFFICE OF THE LOUISVILLE DEMOCRAT. There has been no revival in business since our nyers consider the prices of all commodities as being too high, when taken in comparison with the New York ndard, and they refuse to purchase any more than is

actually needed for immediate con the question, and seem to think that the bottom has already, or will at least be reached, and that a reaction will soon take place. They consequently refuse to sacrifice their stocks, and are only seiling when they are obliged to realize. How long this state of things will ontinge it is impossible to tell, with any degree of certainty, and it is useless to venture a prediction. In our market, to-day, superfine flour could not have been sold at over \$6 25, and it is questionable whether even fast, with eight feet nine inches water in the canal that figure could have been obtained for a round lot. by the mark, seven feet nine inches in the pass on | The asking price is still quied at \$6 50 but no sales were reported, Good extra is offered freely at \$7, but it meets with no attention. Family is held at \$7 50@9, ac. cording to quality and reputation of brand. The market for wheat continues to rule very dull. There has been no material change in the market for corn since the river at the head of the falls had receded three feet three inches, or fully nine feet at Portland. The weather was beautifully clear and pleasant though rather warm.

The market for groceries is dull and prices are a shade lower. We now quote prime to choice qualities of Rio coffee at 20%@82c, raw sugars at 15@18c, hard refined at 19%@20c, and New Orleans molasses at \$1 20 pergallon, Our provision market remains dul, with no inquir for mess pork and we doubt if transactions to any ex-

tent could have been made at any price. Holders were asking \$24@25 for city packed, but they were unable to meet with any purchasers. There was a moderate local Shoulders 15@15%c, clear sides 18@18%c, plain hams 17 @18c, sugar-cured hams at 20@21c. Lard we quote at 18@18c in tierces and 20@21c in kegs. There was a little more business in the discount mar-

ket to day, but not enough to relieve it of the general sluggishness heretofore prevailing. Rates remain easy The following are the quotations given by our bankers

Shocking Berbarties at Turin-Thir tern Mea Whipped to Death-Men Sevency Year of Age Receiving 2 000 Blows-A Borribie Story.

(Tunis Correspondence of the Levant Herald, April 12. In my last I briefly mentioned the bar barous flogging, or rather "sticking," of the Arab prisoners sent in a couple of days before from the camps. In the burry of catching the steamer, I had hardly time to report the punishment and to say that it had produced a very bad general effect. It had begun the day before the arrival of Prince Arthur; and in compliment to him the barbarous operation was suspended during his brief stay, to be resumed as soon as the Enchantress left, with greater vigor and cruel y than ever. One of the victims was Sheikh Madji Manbarik, a man of great influence among the Arabs, and who, more than any one, contributed to the cessation of the last revolt. This unhap-py man, though sixty seven years of age, was ordered by the Bey to receive two thousand blows, and of these every one was inflicted. I witnessed the first part of

this punishment, but was unable to see it out, the cruelty was so revolting. The wretched prisoner was thrown on his face on a piece of matting, his feet tied togeth-er, and his head and shoulders held down by a soldier. The blows were laid on across the hips and small of the back with a thick aspen stick as heavily as a strong man could deliver them, and as one tired another took his place, while a third counted the lows, and shouted, 'strike harder, strike When the victim had received three hunto kill him right off, but the only result ick was wielded with

The whole two ousand blows were inflicted, and at their lusion the victim was taken up-dead ven other Sheikhs received each fifteen blows; of these, also, two died up or those who re ved five hundred blows, I am told, five ied after being thrown into prison. early the whole of these victims were , many of them above seventy years I hear it remarked that no fewer 32 500 blows have been given to this a assured that punishment of similar rbarity is dealtout daily. For the honor humanity, it is to be regretted that none the Consuls have interfered to prevent is brutal cruelty. Here was a matter in ch all might have joined in a remonred to disregard, and yet thus far not protest against brutality which one tht suppose to be impossible within the ge of Eoglish or French influence is nineteenth century. Among Arabi ded them to emigrate wholesale to Algeria, here the French offer them free settlents and many other tempting advanges. Under French authority they wil. east be secure against cruelty which akes the blood curdle, and which is a dis ce to even this semi-barbarous despotn of Tunis.
